

# NO HARM ACROSS THE BOARD

---

## Days Since Last **Fall**

### Fall Prevention:

---

- Assess fall risk on admission for all patients.
- Reassess fall risk daily or if there is a change in medical condition or status.
- Incorporate prevention protocols into purposeful rounds.
- Engage patients and families in prevention.
- Use bed alarms and other safety tools.
- Review and manage patients' current list of medications.
- Create a safe hospital environment.
