

NO HARM ACROSS THE BOARD

Days Since Last Pressure Ulcer

Pressure Ulcer Prevention:

- Assess patients' skin and pressure ulcer risk upon admission.
- Inspect the skin daily and reassess risk for all patients.
- Incorporate prevention protocols into purposeful rounds.
- Reposition patient at least every two hours or more frequently, as appropriate.
- Minimize pressure; use support surfaces for pressure redistribution.
- Elevate heels.
- Manage skin moisture.
- Optimize nutrition, protein, and hydration intake.
