Progressive Mobility Initiatives

Systematically Addressing Patient Harm from
Immobility Across the Hospital

NYSPFP Collaboration with Johns Hopkins
University Medical Center

October 3, 2018

*A partnership of the Healthcare Association of New York State
and the Greater New York Hospital Association*

Agenda

Topic	Speaker
I. Welcome and Introduction	NYSPFP Staff
II. Implementing & Achieving a Culture of Activity & Mobility	Erick Hoyer, M.D, Vice Chair for Quality, Safety & Service, Assistant Professor of Physical Medicine and Rehabilitation Michael Friedman, PT, MBA, Director, Rehabilitation Therapy Services
III. Next Steps and Closing	NYSPFP Staff
V. Open Question and Answer Forum	All Participants

NYSPFP Progressive Mobility Initiative

- Purpose:
 - Promote adoption of progressive mobility programs hospital-wide
- Aim:
 - Accelerate improvement in a broad range of hospital-acquired conditions (HACs) and readmissions that are exacerbated by immobility and deconditioning.
- Target HACs:
 - CAUTI, Delirium, VAE, Falls, Pressure Injuries, Readmissions, VTE, Worker Injuries

Data

Topic	Primary Measure	Baseline Rate	Comparison Rate	Percent Improvement
CAUTI	CAUTI Rate Per 1,000 Catheter Days	1.31	1.00	23.32%
Delirium	Delirium Prevalence Rate	17.01%	16.55%	2.70%
Falls	Falls with moderate or greater harm per 1,000 patient days	0.072	0.066	8.31%
Pressure Injuries	Pressure injury prevalence rate ≥ Stage 2 per 100 patients	1.38	1.65	-19.03%
Readmissions	30-Day All Cause Readmission Rate	12.80%	12.51%	2.30%
Safe Patient Handling*	Musculoskeletal injuries from patient handling activity per 100 direct care providers	1.44	1.45	-0.61%
VAE	VAE Rate	4.14	3.20	22.67%
VTE	PSI-12 Post-op VTE	3.93	3.74	4.82%

*Based on data reported by 39 NYSPFP hospitals
